MARKLEY

Markley Cloud Powered by Nutanix

The Next Generation of Markley Cloud Services

Markley Cloud Services (MCS) and Nutanix have partnered to deliver the next generation of MCS. Nutanix's industry leading KVM-based hypervisor now powers MCS, enabling organizations to simplify operations, reduce complexity and modernize while retaining control over their environments. As IT costs continue to rise and legacy platforms stagnate, this partnership outlines a clear path forward for all MCS clients.

The Power of Nutanix. The Reliability of Markley.

Built on best-in-class Dell PowerEdge AMD Servers and Everpure Storage, MCS combines Nutanix's powerful software platform with the most performant and well-known infrastructure in the market. Backed by Markley's 100% uptime guaranteed data centers, and supported by the same white glove support that organizations have come to expect, the next generation of MCS is designed to deliver a flawless cloud experience that is built for the modern user.

Markley Cloud Services Offerings

Infrastructure-as-a-Service

- Utilizes the Nutanix Acropolis Hypervisor
- Clients utilize Prism Central to easily manage environments and provision resources
- Modern and agile compared to VMware with a more intuitive UI

Disaster Recovery-as-a-Service

- Utilizes Nutanix native DRaaS solution
- Offered as Synchronous or Asynchronous Replication, depending on business needs
- No limitations on failover testing and MCS will assist in runbook planning/implementation

Backup-as-a-Service

- Powered by HYCU, the only purpose-built backup and recovery software for Nutanix
- Used internally by Nutanix for backups, meaning engineering integration is closely aligned
- Custom reporting available in MCS Self-Service portal

Multiple Geographic Zones

MCS is available in different Geographic Zones, allowing for maximum resiliency and redundancy

- BOS1 (One Summer St, Boston, MA)
- BOS2 (One Markley Way, Lowell, MA)
- DFW (1649 W. Frankford Rd, Carrollton, TX)

Why Markley Cloud?

- **Cost Transparency:** Predictable, resource allocation-based pricing. No egress or transaction fees
- **Simple Management:** Intuitive tools and centralized control across the environment
- **High-Touch Customer Service:** 7x24 US Based Support
- **Full Stack Solution:** Tightly integrated business continuity capabilities
- **Scalable:** Easily scale resources up or down based on business demand
